The following sessions focus on the four updated priority areas of the Pasteur Network underscored by our impact areas, namely climate and health, AMR, mother and child health, the demographic transition and aging populations, and other local and regional scientific priorities. The Network's four updated priority areas are: (1) reinforcing epidemic intelligence and preparedness with a specific focus on climate sensitivity; (2) supporting the research, development, and innovation ecosystem in critical diagnostics, vaccines, and therapeutics; (3) creating multi-disciplinary knowledge communities; and (4) equitable collaboration, and sustainability.

8.30-9.00 WELCOME COFFEE

9.00-9.10 Opening remarks – Rebecca F. Grais, Pasteur Network

SESSION 1: REINFORCING EPIDEMIC INTELLIGENCE AND PREPAREDNESS

Moderator: Dan Bausch, London School of Hygiene & Tropical Medicine

Description: Roundtable discussion on how the Pasteur Network can be better prepared for epidemics and pandemics with a specific sensitivity to the climate crisis and climate sensitive infectious diseases.

9.10-9.30 Introduction, Dan Bausch
